- Concentrate on mental health and maintaining a positive attitude.

## QUALITY CONTROL

### NRCO's QUALITY POLICY

Quality control is an essential part of any production process and Quality control in road and highway construction is no exception. Due to significant increases in traffic intensities in recent times, the need for quality control on these specifications has increased considerably. Improving the level of service of roads and highways results in considerable savings in operating costs of vehicles and in favorable road user reactions and opinions of the public.

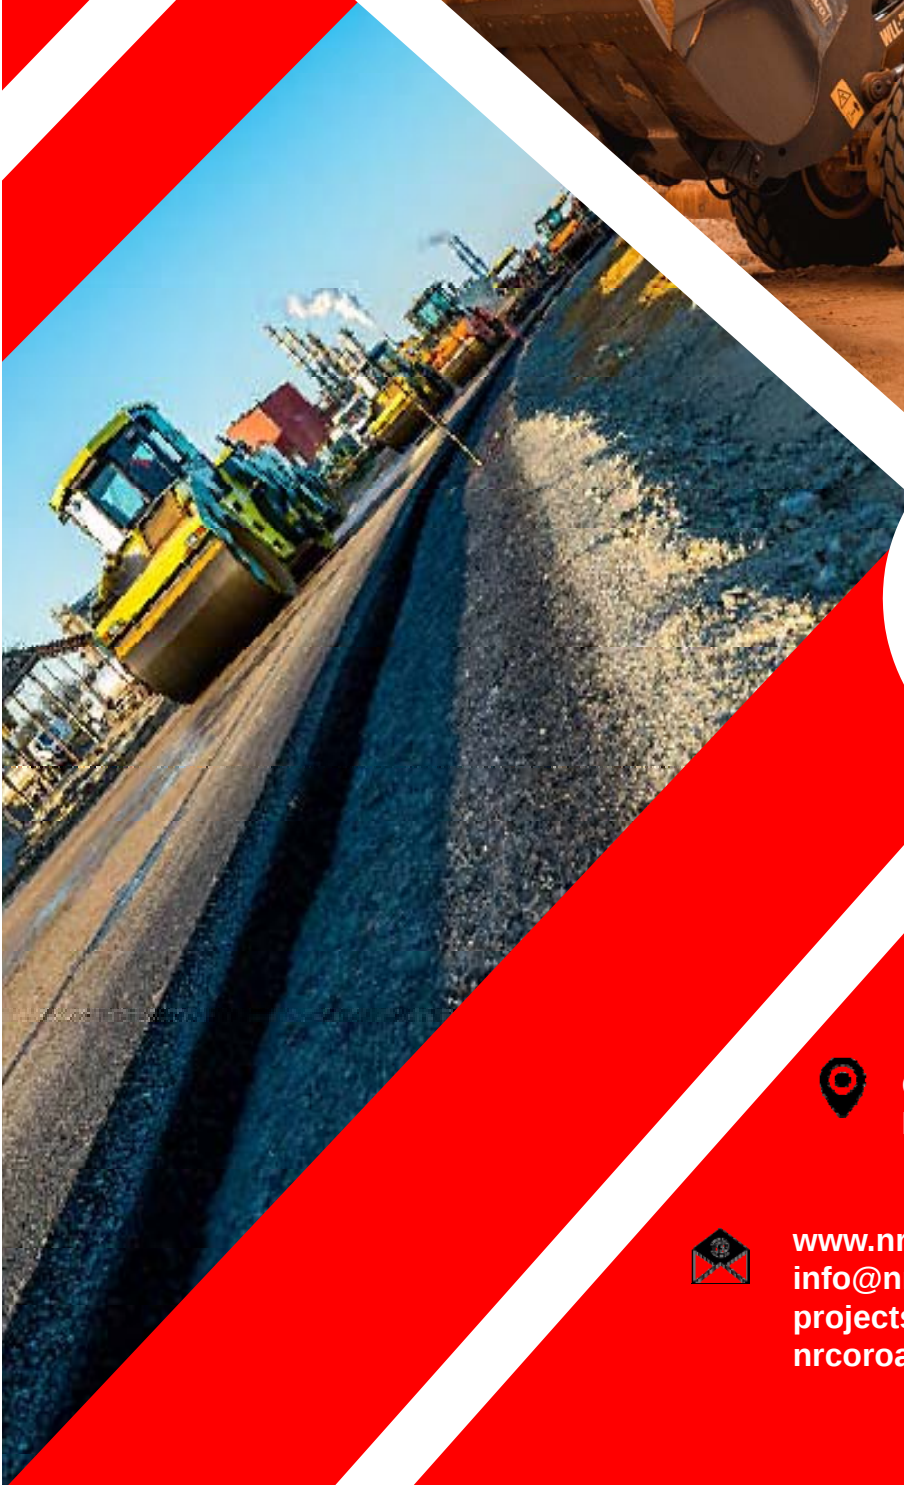

### QUALITY ASSURANCE & CONTROL POLICY

**NRCO Road Contracting L.L.C** shall focus on the company Policies being used to manage and deliver best project performance in each and every project given by clients on regular basis. Quality assurance is a method that will be used to ensure quality standards for best project performance and client satisfaction.

### ROAD CONSTRUCTION QUALITY CONTROL

Mainly road construction estimates and specifications provide the basis for effective quality control. Plus organizations set up quality management systems, adequately trained staff, and proper monitoring agencies for exercising quality control. For effecting possible improvements and implementation in quality control and the construction techniques the periodic appraisal of quality control data is necessary.
